Oliver v5 Community Portal

Many software and service providers offer an online helpdesk where you can log support cases and access basic help documentation…

…what makes the Oliver v5 Community Portal so much more?

Learn from and share with Oliver v5 users globally via an Ask the Community feed.

Network and focus on specific topic interests with Discussion Groups. Discussion groups can be set up and based on any commonality including region, interest topic, events etc.

Customise your community presence with full control of your profile visibility, email notifications and personal aspects like uploading a photo.

Easily access help and training content in multiple formats, that are searchable, topic curated, and recommended.

Connect with Softlink and, of course, log and monitor support cases.

The Community Portal is another reason more schools choose Oliver v5.

If you are an Oliver v5 user and don't have a Community Portal login, please email Softlink Support to request one.
