They are finding it so much easier to use. In fact, many teachers have commented on how easy the system is. The teachers in particular love the new circulation desk with the ability to see exactly what books a child has out as soon as they scan their code. In addition, the ease switching between screens has been very helpful to them.

With no spare time, I need an LMS that saves me time in the performance of core administrative functions such as cataloguing, overdue notices and store checks. Oliver v5 does that; I'm spending at least two hours a week less attending to Oliver v5 than I did with my old system. That's time I can make good use of.

The access to reports has made my role so much easier, prior to using Oliver, I manually analysed library data and created my reports in PowerPoint. The amount of time I have saved using the inbuilt reports is fantastic, and I have more confidence in the accuracy of information included in the reports.

Oliver v5 is more intuitive than any comparative system I've seen before. From a management perspective most things are very efficient, you can add users very easily and changing due dates is another good example.

I love the way that at the start of next year I'm going to be able to upload the new class lists from a file and not have to go through and do it all manually. I would definitely advise other schools to buy Oliver v5 for their school, I think it is a great resource.

**Jenny Ruthenberg, Teacher Aide
Claremont Special School, AU**

Our Library Assistant is quite chuffed with the 'Relationship' function in the catalogue, which makes her life a lot easier when students ask how a series goes.

**Rob Childs, College Librarian

Cataloguing is so much quicker now, not having used Z-cataloguing before I am finding it a real time saver. Looking up resources is so much easier. I seem to have more time to perform other tasks.

**Kathleen Cassell, Library Technician
Buninyong Primary School, AU**

Smart cataloguing has halved my time when cataloguing and I love how Oliver v5 automatically sources details from SCIS, Library of Congress, the National Library or any other data source I use.
