

Junior and Middle School Interface

Softlink

Hear from Orbit users...

The students love using Orbit! It is easy, age-appropriate, has bright graphics and clear icons and can be used on Macbooks and iPads well. Very young students are loving using their iPads to search for their books using Orbit.

Orbit is excellent for younger students and makes it easier for them to locate the resources they want. The ability to search by format e.g. eBooks is a great idea.

Helen Cooper
St Joseph's Catholic Primary, Como

Orbit allows more hands-on options for students, e.g. personalising their logged in backgrounds, reviews and star ratings.

Oliver and Orbit are helping us to engage students in the library. Children as young as the Year 1's are walking in, with no words, picking up an iPad, opening Orbit and going and finding a book on their own... that's priceless.

Mt Hawthorn Primary School

Orbit is extremely helpful to both students and their parents as parents can now look up the books their child has and see what they look like.

Last week I observed my Year 2 students searching for a book using Orbit, looking at the photo map and then being overjoyed to find the book on the stack. Very satisfying!
