

Softlink

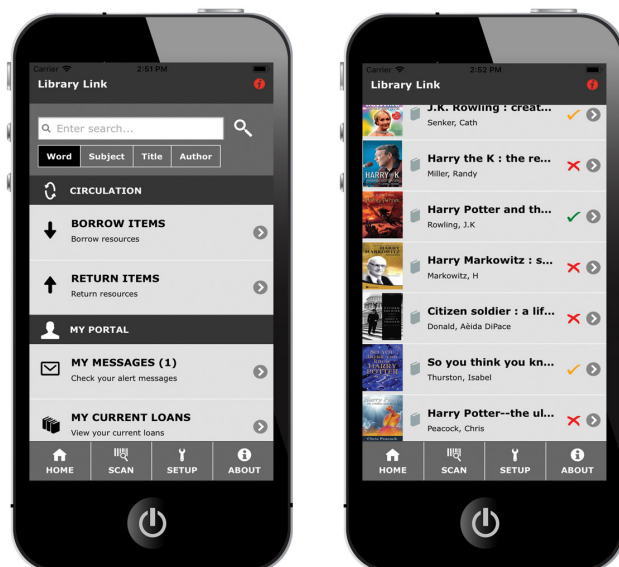

Library Link Mobile Application

The Library Link mobile app is specifically designed for use on mobile phones and small mobile devices.

With Library Link you can...

- Search for available resources and view detailed information
- View and renew loaned items
- Borrow and return items
- View available and checked out resources, place a reservation
- Browse the library's reading lists
- Borrow, hold, access and return OverDrive and Wheelers eBooks and audiobooks
- Check your alert messages
- View the library's latest resources (New Items)
- Scan ISBNs or barcodes to automatically retrieve resources from the system
- Identify editions and titles easily with cover images
- View library information such as location and opening hours

The Library Link app is free and available from iTunes and Google Play Store.

Android QR

iPhone QR

It's quick and easy to set up. Oliver v5 users can contact their local support team (details below) or search the [Community Portal](#) for Library Link set up.
